WHERE IT GOES
This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Print 84 wide, 22 deep, 35 tall, as an arch: a grip bar 10 thick over a 62 x 25 opening, legs 11 wide.
Round every grip edge to 3 mm.
M5 heat-set insert in the bottom of each leg, 12 deep, at 36.5 each side of centre.
Fit: legs flat on the tray top end, 8 toward the back from the depth centre; two M5 screws from inside the tray.
The thumb button sits just behind the grip, 3 mm clear of it.
Check: a gloved hand fits through the opening.
