WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Print 120 wide, 110 deep, 45 tall.

Plug pocket 60 x 38, 18 deep from the top, centred across, its back edge 23 from the shelf back face.

Receptacle cavity 72 x 50 from the bottom up to 27, centred under the pocket; the 6 mm ledge between them holds the receptacle.

Four M5 heat-set inserts in the back face, 45 each side, 10 and 35 up; four M3 inserts in the bottom, 40 each side, 13 and 71 from the back face, for the retainer plate.

Fit: back face flat on the plate, four M5 countersunk screws from behind; top face 60 above the dock datum.

Check: the plug drops into the pocket with 2 mm all round.
