

REV	DESCRIPTION	DATE	BY
P1	Making sketch for the prototype build plan	2026-10-01	AC

TOP VIEW
Scale 1:2; looking down (along -Z)

WHERE IT GOES
This part in colour, its neighbours in grey

FRONT VIEW
Scale 1:2; looking at the front (along +Y)

RIGHT VIEW
Scale 1:2; looking at the right side (along -X)

HOW TO MAKE IT AND HOW IT FITS

- Print 12 wide, 70 deep, 180 tall, standing up.
- Lead-in: a 10 x 45 degree chamfer along the top inner edge.
- The left guide is a mirror image of the right.
- Two M5 heat-set inserts in the back end, 40 and 140 up.
- Fit: back end flat on the plate, bottom on the shelf top;
- inner faces 92 apart, 1 mm clear of the pack each side.
- Two M5 countersunk screws each from behind the plate.
- Check: the pack slides between them without rubbing.
